How To: Access SJNET from Home

This “How To” sheet will guide you through the process of accessing SJNET from home. Please follow these simple steps to gain access.

1. Using your favourite internet browser (such as Internet Explorer) browse to our corporate website http://www.stjoe.on.ca and then click on the FOR STAFF link.
2. You will be brought to the FOR STAFF page, click on Access to SJNet.

2. You will now be at the St. Joseph's Health Centre Staff Web Access website, enter your Windows username and password as seen below, and then click on Logon.
3. You will be brought to the SJNet home page, it’s the same one you would see when using a computer at the Health Centre.

5. Once you have completed using SJNet and associated resources, click on the Logout button shown below:
6. Now that you have been logged out you can now close your browser window, remember to follow the steps listed in the green box. Otherwise you can click on Logon which is shown in the red box to log back into MediHR.

*Reminder* - Please remember to click on the Logout button as seen in step #5 when you are done using SJNet. This is of most importance when using a public computer.
